## DETAILED ACTION

### *Response to Amendment*

Applicant's amendment filed 9/6/05 is acknowledged.

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 21-23 and 27 are rejected under 35 U.S.C. 102(e) as being anticipated by Morlan et al. (6,905,178). Morlan et al. discloses a brake booster assembly with a brake booster including a housing having a wall 14, a mounting bolt 100 extending from the wall 14 and a clip 400 engaged with the mounting bolt 100 and fixed in position relative thereto, wherein the brake booster includes a master cylinder mounted on the housing, a fluid reservoir mounted on the master cylinder and an input rod assembly attached to the master cylinder adapted to be attached to a brake pedal assembly, the mounting bolt 100 is fixed in position relative to the wall 14, and the clip 400 has a tapered end 417 portion that engages the mounting bolt 100.

***Allowable Subject Matter***

Claims 24-26 and 28-30 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 31-40 are allowed. The improvement comprises the mounting bolt and the clip extending through the aperture of the vehicle panel.

***Response to Arguments***

Applicant's arguments with respect to claims 21-40 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 3745

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
